Due to popular demand, three sessions will be held:

3rd February (Mon)

6th February (Thurs)

7th February (Fri)

All the successful registrants have been informed. Registration attendance starts at 11.30am

During these sessions, we will introduce to many of our new members what we are about and what we do. We will also preview our upcoming courses and activities we organise throughout the year. There will also be a presentation on Skills Future Credit from the authority. Finally join us in a sing along session with many CNY songs we are familiar with – bring along your ukulele and percussion to add to the fun. We will round up the session with Lohei and a light tea buffet.

Looking back:

Last year's Lohei held at Hotel Royal Queen.

Exit the year of the Pig, enter the year of the Rat. Another chapter, another story. Another year!

Snippets of Past Activities

Our regular monthly activities have been going on for several years now and still going strong with new faces seen for each new session.

Film and Discussion - Miss Saigon

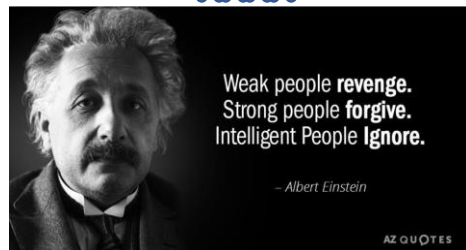

Film & Discussion

The Farewell is a 2019 American comedy-drama film written and directed by Lulu Wang. The film follows a family who, upon learning their grandmother has only a short while left to live, decide not to tell her and schedule a family gathering before she dies.

Aspiring Chinese-American writer Billi, 30, maintains a close relationship with Nai Nai who lives in Changchun, China. Billi clashes with the family and the doctor over their deliberate dishonesty towards their grandmother. Her uncle, Haibin, contends that the lie allows the family to bear the emotional burden of the diagnosis, rather than Nai Nai herself—a practice of collectivism that Haibin acknowledges to Billi differs from the individualistic values common in Western culture. Billi keeps her promise to maintain the lie and shares a tearful goodbye with Nai Nai.

Sembawaing Hot Spring Park

Located off Gambas Avenue, Sembawang Hot Spring Park features new cascading pools and a water collection point. The park's rustic environment, reminiscent of old kampungs, also holds many collective memories for the community. Visitors can enjoy the new Floral Walk and see fruit trees and edible plants commonly found in kampungs, and flowers commonly seen in the 1960s and 1990s. The rustic environment is further enhanced by unpaved paths and naturalised streams flowing from the hot spring, which mimics the freshwater swamp forest landscape. The public can also learn more about the history of the site and geothermal processes behind the formation of a hot spring through interpretative signs at locations of interest.—
